21/5/2020 Dear Chief Secretary,

As you are aware that the Ministry of AYUSH, Government of India has setup *Interdisciplinary AYUSH Research and Development Task Force* to formulate and develop strategies to address the COVID- 19 pandemic problem in the country thorough clinical studies (prophylactic and add-on interventions) of AYUSH systems. The Task Force after thorough consultative process have recommended some generic protocols and certain promising interventions for prophylaxis and add-on to standard care in COVID-19.

This Ministry is pleased to share the template of the generic protocols pertaining to various type of clinical studies and population based studies. In order to generate a tangible evidence with multi centre studies it would be more appropriate to study on uniform interventions across the country. Further this may certainly generate a big data on AYUSH intervention acceptable to global scientific communities with publishable outcomes.

I am happy to learn that the State Governments are proactively taking initiatives to combat the COVID-19 pandemic through AYUSH approaches and extending healthcare services across the masses. It is the need of the hour to document the outcomes of these prophylactic interventions and AYUSH based add-on therapeutics to COVID-19 positive patients being promoted by the states and publish them.

The protocols and formats for documentation are enclosed for ready reference. Your good offices may advice the Directorates/Department of AYUSH for optimal utilization of technical inputs. They may be advised to contact the Program Management Unit, setup in this Ministry for Research in COVID-19 at osdt-ayush@gov.in for any technical help.

Further your good offices are also requested to put all possible efforts to sensitize the stakeholders such as AYUSH physicians, academicians, students and public to participate in Impact Assessment of AYUSH based immunity promotion guidelines through **AYUSH Sanjivani** mobile application of Ministry of AYUSH and join hands to make this a big success.

With regards,

Yours sincerely,

(Rajesh Kotecha)
